EXPERIENCE

CONTRIBUTIONS TO NIRMATA/KYVERNO | Golang, Cli Tests

• [FEATURE] ADDED KYVERNO CLI TO SCOOP PACKAGE MANAGER
Sept 2023 | Lucknow, India
• Github:// scoop
• Created a manifest file for Kyverno CLI in the Scoop "Main" bucket which includes version info and download link for the Kyverno CLI and follows Scoop's manifest structure.

• MIGRATED SCENARIO BASED TESTS TO CLI
Feb 2023 | Lucknow, India
• Github:// cli
• Migrated all scenario based tests into CLI tests and moved all their respective policies and resource manifests linked in scenario based tests to cli tests and changed their format according to the needs.

PROJECTS

COLLEGE INFORMATION SYSTEM(CIS) | Golang

Feb 2023 | Lucknow, India
• Github:// College-Information-System-CIS
• The College Information System(CIS) is a Go program that manages and stores information about students, teachers, and staff in a university. The data is stored in a JSON file named university.json.

LINKCRAFT-PRO | Golang

Feb 2023 | Lucknow, India
• Github:// LinkCraft-Pro
• LinkCraft Pro is an HTTP handler designed to create URL redirections based on predefined paths. This exercise aims to implement the necessary methods in handler.go to achieve the redirection functionality, simulating a URL shortener.

HANKER RANK PROBLEMS | Golang

Feb 2023 | Lucknow, India
• Github:// HRProblems
• The first problem is **camelcase**, and in this problem the goal is to find out how many words were used to create a camelcase string.
• The second problem **caesarcipher**, involves encrypting a string, by substitution cipher in which each letter in the plaintext is replaced by a letter some fixed number of positions down the alphabet. .

RAPIDQUIZ PRO | Golang

Feb 2023 | Lucknow, India
• Github:// RapidQuiz Pro
• RapidQuiz Pro is a two-part exercise designed to create a quiz game application in Go. The goal is to read quiz questions from a CSV file and engage users by providing immediate feedback on their answers.

AWARDS

• 2022 Fundamentals for Kyverno Badge - Kyverno Community
